Welcome to our second newsletter!!!

A brief reminder of what GAP is about ...

Our project 'Against the gap between training and labour world' is being implemented in the framework of the ERASMUS+ programme as a Cooperation partnership in vocational education and training. All project's activities are designed to enhance the Vocational Training Centers' processes and competences targeting the job insertion of vulnerable people.

Our team ...

TTB (Bulgaria) <https://ttbulgaria.eu/>
MEK (Greece) www.mesogeiaiko.gr

Recent activities of our team....

Throughout the first year of the project's lifecycle, we concentrated heavily on formalizing the methodology to be used for gathering information, tools, and best practices in the five participating nations related to offering assistance to individuals who require it for job insertion.

Being a very outgoing project, GAP was effectively disseminated to its network of partners, which led to the development of a best practices and tools registry for aiding in the job insertion process. As soon as this is concluded, the results will be accessible through the project's platform!

The team's second in-person meeting was held in October, this time in Bucharest, Romania, and was organized by www.acdcromania.ro.

Once again, the team had the chance to get together, work for two days, and enjoy Bucharest. The meeting exemplified the power of international collaboration in addressing complex

social and economic challenges. GAP keeps laying the groundwork for a strong vocational training ecosystem that is in line with the changing demands of the labor market by exchanging knowledge and forming strategic alliances.

Newsletter, December 2024

The team also had the chance to visit <https://remesh.ro/>, a workshop on labor market reintegration and the circular economy organized by the Atelier Făra Frontiere Association <https://atelierefarafrontiere.ro/>.

This visit reinforced the importance of cooperation between creative social

enterprises and VET centers and provided a hands-on example of the fundamental ideas of GAP.

We learned about their creative approaches of bringing people from underprivileged backgrounds into the workforce during the tour, along with their unwavering dedication to environmental sustainability, especially through recycling and reusing initiatives. The GAP's goal of establishing inclusive career pathways took another step ahead with the Bucharest visit.

Forthcoming ...

We will soon be in the happy position to share with you, our multi device platform, so stay tuned!

Next transnational meeting will be hosted by <https://ttbulgaria.eu/> at Sofia (Bulgaria) during the first semester of 2025!
