Our aim...

Our aim is to enhance the methods used by Vocational Training Centers (VET) in order to target the integration of vulnerable adults. The development of the trainees' technical and non-technical competencies, the reduction of social and financial barriers, the improvement of self-awareness and security, the creation of a personal project, etc., are all aspects that encourage job insertion.

Our goal is to develop a global methodology:

- ➔ to improve the integration process provided by Vocational Training Centers (VET)
- ➔ to create synergies between vocational training professionals
- ➔ to equip and improve vocational guidance and job-coaching processes in VET
- ➔ to provide managers with tools to guide their organisation's actions towards better integration
- ➔ to provide experts with a methodological framework for supporting VET.

For whom...

All project's activities are designed to enhance the Vocational Training Centers' processes and competences targeting the job insertion of vulnerable people.

Recent activities of our team....

During this first phase of our project, which consists in developing a methodology and successful pathway that will guide us to produce comprehensive and up to date tools serving our aims, which we will share with you, FONDAZIONE LUIGI CLERICI, welcomed all of us and hosted our transnational meeting in Ancona on the 14th of May.

We all had the pleasure to meet face-to-face and enjoyed working for a day together in planning and monitoring our next steps.

Forthcoming ...

We will soon be in the happy position to share with you the project's multi device platform, so stay tuned!

Next transnational meeting will be hosted by Asociatia Consultantilor in Dezvoltare Comunitara in Romania in October 2024!
